ELETTRONICA ELECTRONIC ELECTRONIQUE

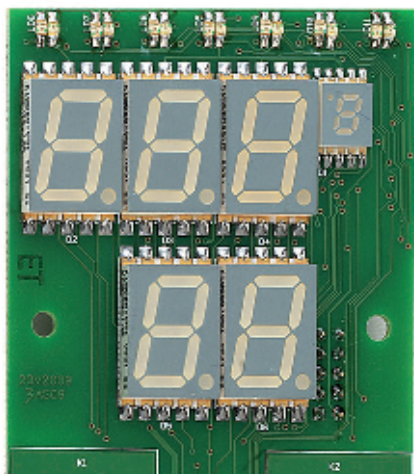

L'elettronica sta oramai regolando le nostre vite, scandendo con precisione ogni istante delle nostre giornate. Spesso si sottovaluta l'utilità degli oggetti che utilizziamo quotidianamente perché oramai fanno parte di noi, ma guardiamo con crescente curiosità ed interesse a quanto di nuovo ci viene proposto. Il nostro destino sarà sempre più condizionato da soluzioni elettroniche innovative e noi di LIRICO non intendiamo rinunciare a proseguire con i gli sforzi per migliorare le nostre proposte elettroniche che da tempo ci permettono di comandare l'acqua con soluzioni semplici, intuitive ed estremamente affidabili. Con i nostri sistemi Touch abbinati a prodotti e soluzioni esclusive abbiamo raggiunto lo scopo di rendere estremamente confortevoli le nostre abitudini quotidiane.

The electronics adjusting our lives, shouting out every moment of our days. Often underestimate the usefulness of the objects that we use every day because now they are part of us, but we look with growing curiosity and interest in what is being proposed again. Our fate will be increasingly affected by innovative electronic solutions and we do not intend to give up to continue with their efforts to improve our proposals by electronic allow us to control the water with simple, intuitive and extremely reliable. With our Touch systems combined with exclusive products we have achieved the aim of making extremely comfortable our daily habits.

Les composants électroniques sont maintenant ajuster nos vies, criant à chaque instant de nos jours. Souvent sous-estimer l'utilité des objets que nous utilisons tous les jours parce que maintenant ils font partie de nous, mais nous attendons avec curiosité et un intérêt croissants dans ce qui est proposé à nouveau.

Notre destin sera de plus en plus touchées par des solutions innovantes électroniques et nous de LIRICO n'avons pas l'intention d'abandonner à poursuivre leurs efforts pour améliorer nos propositions par le temps électroniques nous permettent de contrôler l'eau avec simple, intuitif et extrêmement fiable.

Avec nos systèmes Touch associés à des produits uniques que nous avons réalisé dans le but de rendre extrêmement confortables nos habitudes quotidiennes.

ETAP BOARD

ENI BOARD

Esempio di tastiere capacitive da sottopiano utilizzabili in alternativa alla rubinetteria tradizionale.
Una volta collegata ad una bocca di erogazione permette di regolare elettronicamente sia la temperatura sia la portata dell'acqua.
Per poter funzionare, le tastiere vanno collegate alla Black Box.

Example of capacitive keyboards undercounter to be used as an alternative to the traditional fittings.
Once connected to a spout allows to electronically adjust both the temperature and the water flow rate.
In order to function, the keyboard must be connected to the Black Box.

Exemple de claviers capacitifs utilisés comme une alternative aux robinets traditionnels.
À reccorder à un bec permet de régler électroniquement la la température et le débit d'eau.
Pour pouvoir fonctionner, le clavier doit être connecté à la Black Box.
